

blade7000.txt

Make sure you install custom firmware on the blade
bm7000s or you cannot add a cline.

You can get that from here:

<http://www.c-line.com/download/BM7000s-122p-25-04-11.stb>

Download the software and put it on a usb stick and plug
it in to the receiver, go to utilities, then go to
downloads press ok and choose the firmware on the stick
and press ok again, now let it upload the firmware to
your receiver.

whilst watching any tv channel press on the remote
control 9991.

A menu will appear called server list on connection 0
press ok and again enter the password 9991
it will give you a service editor.

- 1 NAME you can leave this as it is connection_0
- 2 PROTOCOL change to cccam by pressing right arrow on
the remote
- 3 TIMEOUT 3 sec
- 4 FILTERMODE auto
- 5 FILTERLIST 0
- 6 ID enter here the user see example
- 7 PASSWORD enter her the password see example
- 8 DES-KEY leave the way it is
- 9 ADDRESS some.address.org Enter here cccam address see
example
- 10 PORT 12345 enter port see example

This is an example c line

c: some.address.org 12345 user password
